on Grant Program "Support of the Organic Sector in Ukraine"

(revised on 15.08.2022)

SECTION 1. DESCRIPTION OF THE GRANT PROGRAM

1.1. PURPOSE

The Grant Program was initiated by the [Organic Initiative](#), which includes the key players of the organic sector of Ukraine. The Organic Initiative joined forces and resources of like-minded people and started its activities in April 2020; it aims to promote the development of the organic market and increase trade with Ukrainian organic products on the domestic and foreign markets.

The purpose of the Grant Program is to support the organic producers, preserve and strengthen the capacity of the organic sector of Ukraine in the mid- and long-term.

The eligible applicants are organic market operators, service providers, public organisations and unions working in the field of organic production, circulation and labelling of organic products - legal entities residents in Ukraine.

The objectives of the Grant Program activities include:

- 1) to support the organic sector of Ukraine by providing financial assistance to address the needs that have appeared as a result of the full-scale russian invasion of Ukraine;
- 2) to maintain certified organic producers and lands;
- 3) to contribute to further development of the organic sector through support of measures aimed to stimulate the producers' economic development.

1.2. GENERAL INFORMATION

The Program "Support of the Organic Sector in Ukraine", initiated by the Organic Initiative, was announced in April 2022 and operates on stages, based on the availability of funds (pending a decision to suspend it), with intermediate deadlines for the grant committee to consider applications.

The Grant Program is financially administered by the International Charitable Organization "Information Centre "Green Dossier" and Lviv City Public Organization "Ecoterra" in accordance with the decision of the Organic Initiative and the statutory tasks of the organizations.

The monetary fund of the Grant Program is formed from charitable donations and contributions of individuals and legal entities (residents and non-residents of Ukraine), targeted contributions of international projects / technical assistance programs and other revenues.

¹ These Guidelines are valid for Phase 2 of the Grant Program. Phase 1 is over. For the reporting and documents related to Phase 1 visit the Program webpage <https://www.dossier.org.ua/en/projects/organic-sector-support/>.

1.3. EXPECTED OUTCOMES OF THE GRANT PROGRAM

Since the beginning of the Russian invasion to Ukraine on 24 April, Ukraine's organic sector, like the entire agricultural and food industries, is being affected. Much of the land used for organic production has been lost in combat or due to occupation. Despite all the difficulties, many organic producers have started the sowing season, are providing accommodation and food for the refugees from different parts of Ukraine.

Under these circumstances, Ukrainian organic producers need support to continue organic farming, provide the population of Ukraine and other countries with healthy organic food.

Expected outcomes:

- 1) maintaining the number of organic producers in the territories under the Ukrainian control;
- 2) facilitating the sale of organic products and establishing new supply chains under the current circumstances;
- 3) securing additional funding to support and develop the organic sector of Ukraine
